

At Horizon, we believe involvement of family members and friends is an essential part of treatment and recovery. Our Campus Family Programming provides a space for individuals to connect with their loved ones in a supportive and welcoming environment.

The Family Program addresses the following goals:

- Equipping family members and friends with the skills and resources they need to provide their loved one with support.
- Stressing the importance of recovery for the entire family system.
- Investigating family patterns that work against recovery.
- Preparing the family for expectations of early recovery.
